

Earth Screw Clamp

Heavy Duty Solid Brass

Suitable for all welding.

betaweld[®]
creating better welding solutions

Applications & Features:

Heavy Duty Earth Screw Clamp is designed for an ultimate in good grounding requirements for all welding processes.

The clamp is made of 100% solid brass.

No screw connection in the contact surfaces that can loosen.

Double screw cable connection to ensure good strain relief and low cross resistance.

Rubber sleeve protects the connection from moisture and consequent corrosion.

Manufactured in EEC.

Specification:

Maximum Cable Size – 50mm²

600A Capacity

Part Number:

P/N: 5104
