

Earth Spring Clamp

Heavy Duty Solid Brass

Suitable for all welding.

betaweld[®]
creating better welding solutions

Applications & Features:

Heavy Duty Earth Spring Clamp is a solid construction with all main components 100% solid brass.

Parallel connectors for maximum earthing.

Positive earth contact reduces the possibility of functional failure when welding.

Double screwed connectors to ensure minimum resistance and reduce cable strain.

Rubber boot protection against damp & corrosion.

Easy single grip use.

MINE SPEC APPROVED

Manufactured in EEC.

Specification:

Maximum Cable Size – 120mm²

300A Capacity

Part Number:

P/N: 5103
