

Connectors

High Amperage Cable Connectors
To suit 70/95mm² & 95/120mm² Cables

betaweld[®]
creating better welding solutions

Applications & Features:

Betaweld Cable Socket & Plug connectors are manufactured to the highest quality, with precision tolerances and are able to provide high load-bearing capacity for the current transition in welding power cable.

They ensure a fast and safe connection of power cables. Just fasten together, twist tighten and the connection is guaranteed secure.

Part Numbers:

Cable Plugs -

P/N: 5110 - 70/95mm²

P/N: 5111 - 95/120mm²

Cable Sockets -

P/N: 5108 - 70/95mm²

P/N: 5109 - 95/120mm²

Machine Sockets-

P/N: 5112 - 70/95mm²

P/N: 5113 - 95/120mm²

Specifications:

Type	Part Number	Nominal Cross Section (mm ²)	Capacity (Amperage)	Dinse Equivalent
Cable Socket	5108	70-95	500	DIX BKS 95 121120090
Cable Socket	5109	95-120	590	DIX BKS 120 121120120
Cable Plug	5110	70-95	500	DIX SKS 95 12212009
Cable Plug	5111	95-120	590	DIX SKS 120 122120120
Machine Socket	5112	70	400	DIX BE 70/95 121300070
Machine Socket	5113	95	480	DIX BES 95/120 121300120
